untrue. The evidence in the trial is your data and the statistics that go along with it. All hypothesis tests ultimately use a p-value to weigh the strength of the evidence (what the data are telling you about the population). The p-value is a number between 0 and 1 and interpreted in the following way:

Forever young, I want to be forever young
Do you really want to live forever
Forever young Some are like water, some are like the heat
Some are a melody and some are the beat
Sooner or later they all will be gone
Why don't they stay young
It's so hard to get old without a cause
I don't want to perish like a fading horse
Youth is like diamonds ...
