Ironclads

Ironclads were designed for several roles, including as high seas battleships, coastal defense ships, and long-range cruisers. The rapid development of warship design in the late 19th century transformed the ironclad from a wooden-hulled vessel that carried sails to supplement its steam engines into the steel-built, turreted battleships and ...

Ironclads (film) - Wikipedia

Ironclad Warships Ironclad warships were another innovation of the American Civil War. Like submarines and balloons, the ironclad war ship wasn't invented during the Civil War, but the Civil War was the first time ironclads saw widespread, effective use. In 1592, the Korean Royal Navy launched what some believe to be the first ironclad warship.

Ironclad Warships of the Civil War

An ironclad was a steam-propelled warship in the early part of the second half of the 19th century, protected by iron or steel armour plates. The term battleship was not used by the Admiralty until the early 1880s, with the construction of the Colossus class. Prior to this point, a wide range of descriptions were used.

List of ironclads of the Royal Navy - Wikipedia

This is a list of ships of the Confederate States Navy (CSN), used by the Confederate States of America during the American Civil War between 1861 and 1865. Included are some types of civilian vessels, such as blockade runners, steamboats, and privateers which contributed to the war efforts by the CSN. Also included are special types of floating batteries and harbor defense craft.
