This also applies to the general principles of civil law, for instance good faith. They also have to be redefined to be consistent with the European Union's legal order. The contributions in this book examine EU general principles and their distinction from rules both within the context of the European Union as well as of the Member States.

International law, also known as public international law and law of nations, is the set of rules, norms, and standards generally accepted in relations between nations. It establishes normative guidelines and a common conceptual framework to guide states across a broad range of domains, including war, diplomacy, trade, and human rights.
